

**11.0 Graphs and Tables**

**11.1 Graphs**

**Graph 1:** Frequency of ceramic types found in the main contexts. Ceramic types with very low frequencies were removed from the graph. Based on Table 24.

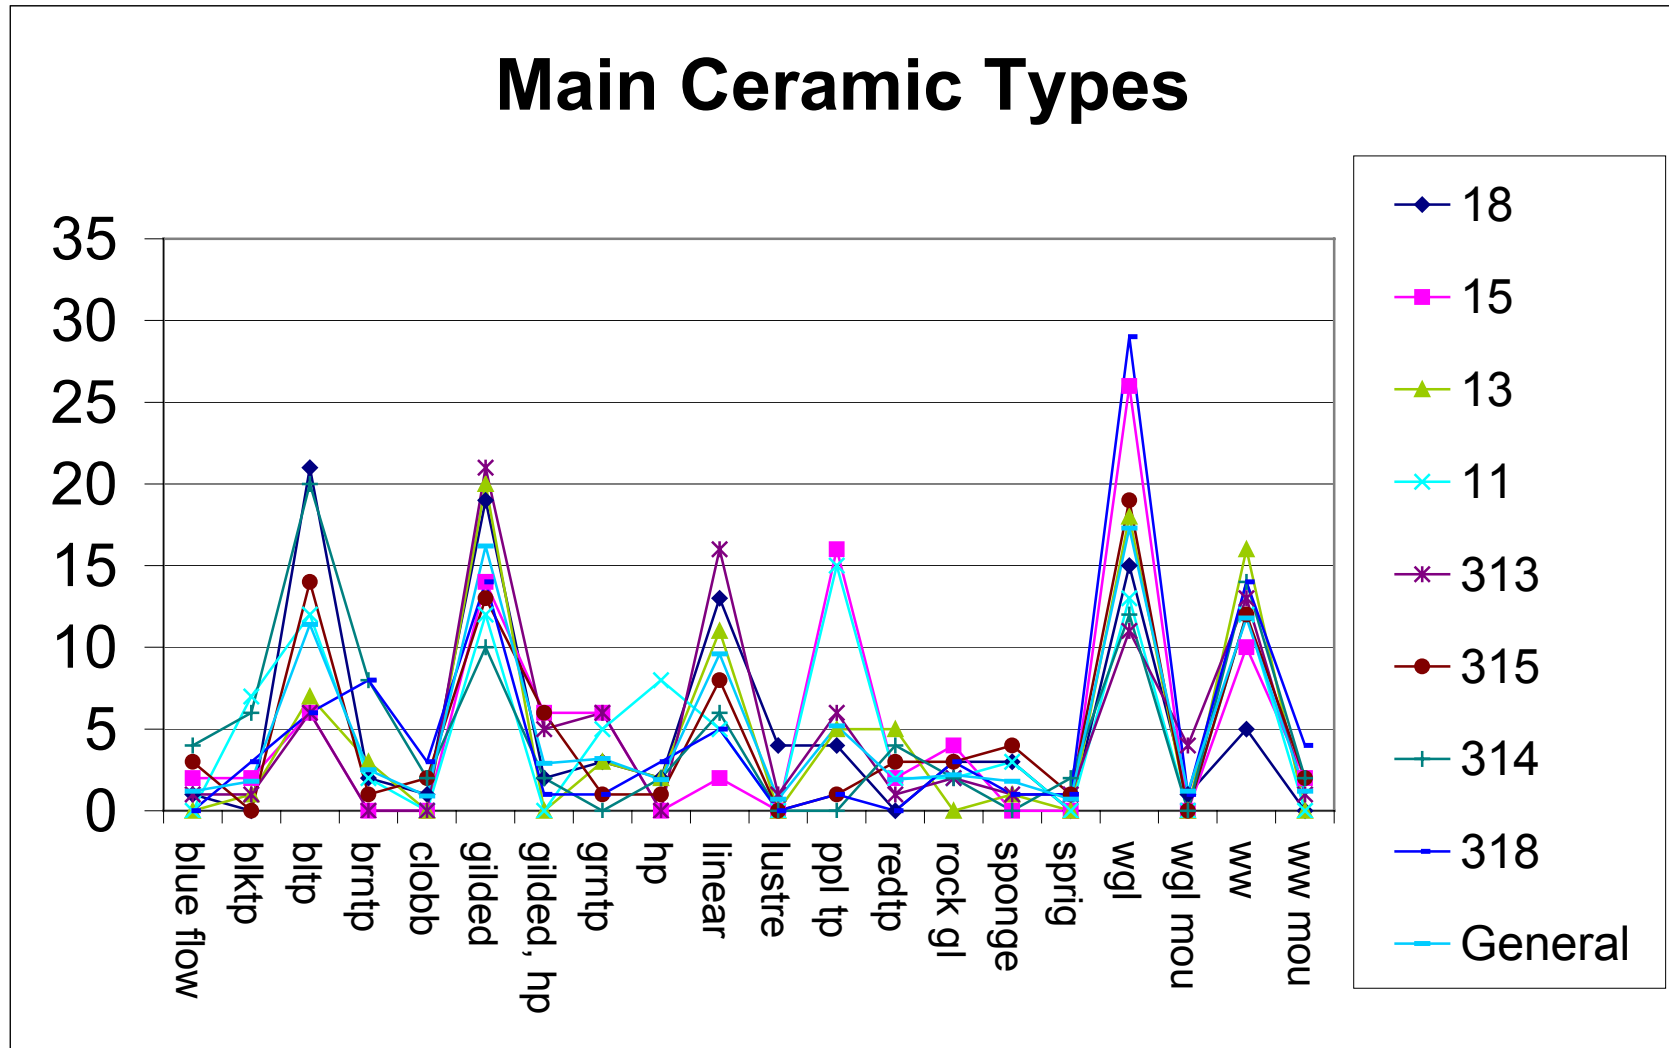

**Graph 2:** Overall frequency of ceramic types found in the main contexts. Ceramic types with very low frequencies were removed from the graph. Based on Table 24.

**Graph 3:** Range of ceramic types found on plates in the main contexts from the CSR site. Based on Table 25.

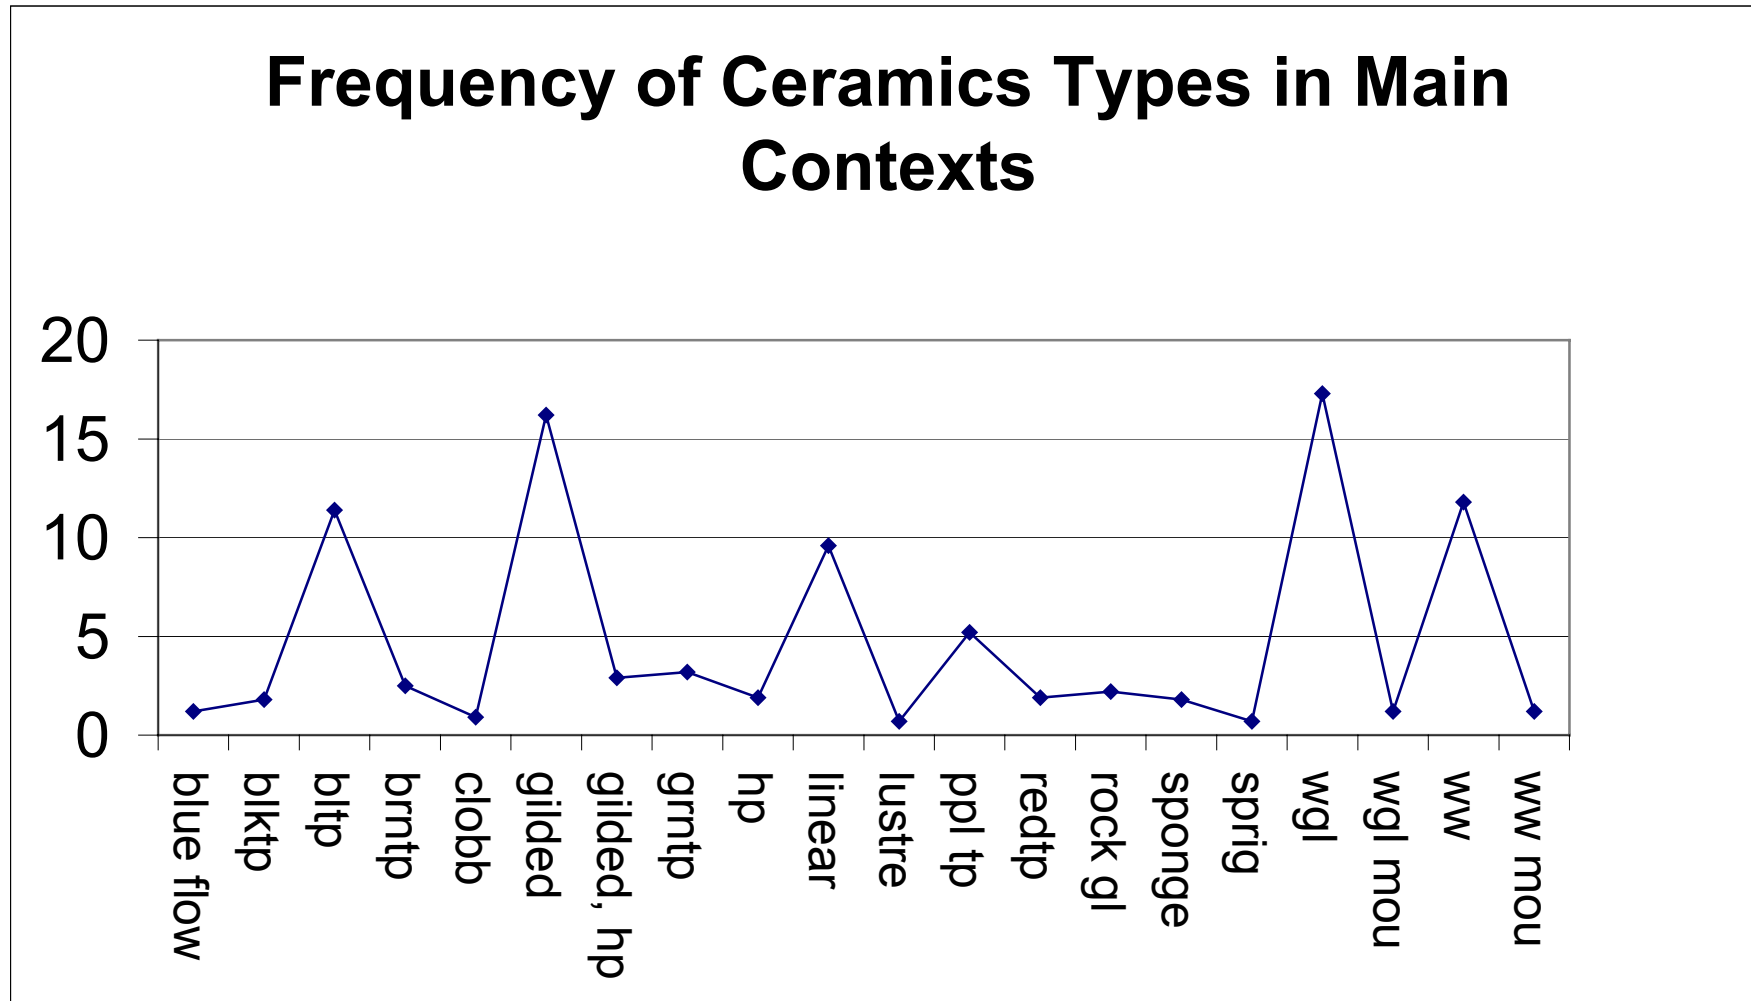

**Graph 4:** Range of ceramic types found on teawares found in the main contexts. Based on Table 26.

**Graph 5:** Frequency of ceramic types on plates and teawares.

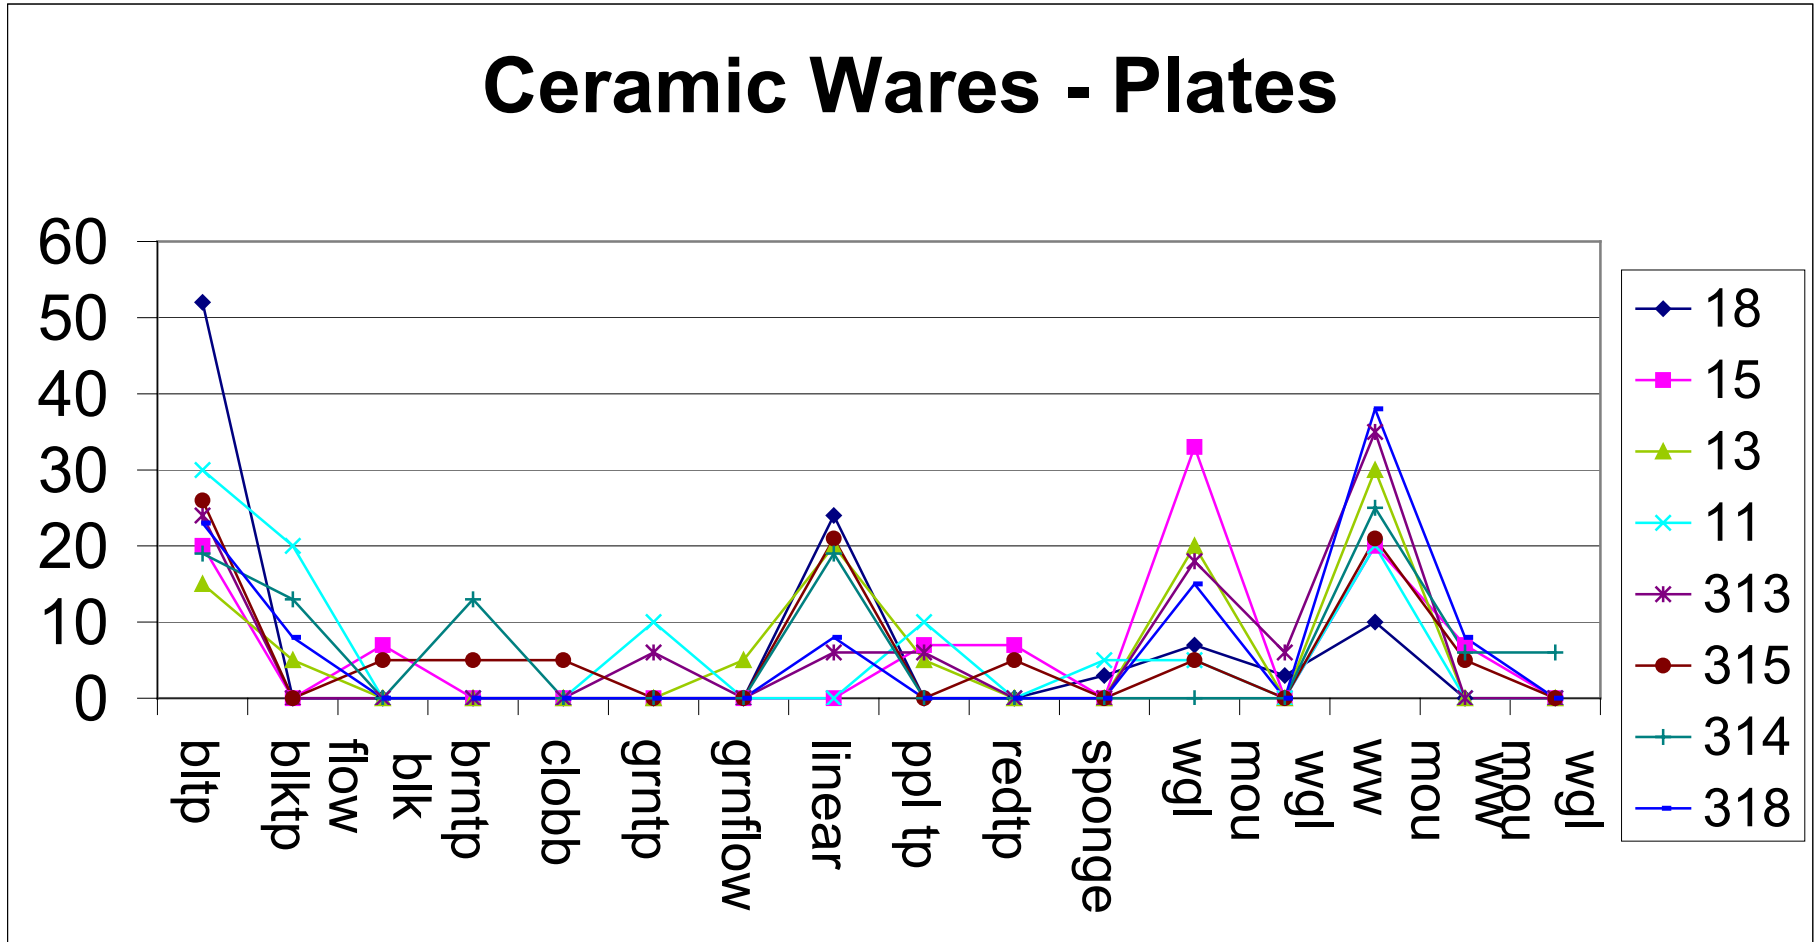

**Graph 6:** Frequency of ceramic types found on plates, teawares and overall at the CSR site. Ceramic types with a low frequency were removed from the graph. Based on totals in Tables 24, 25, 26.

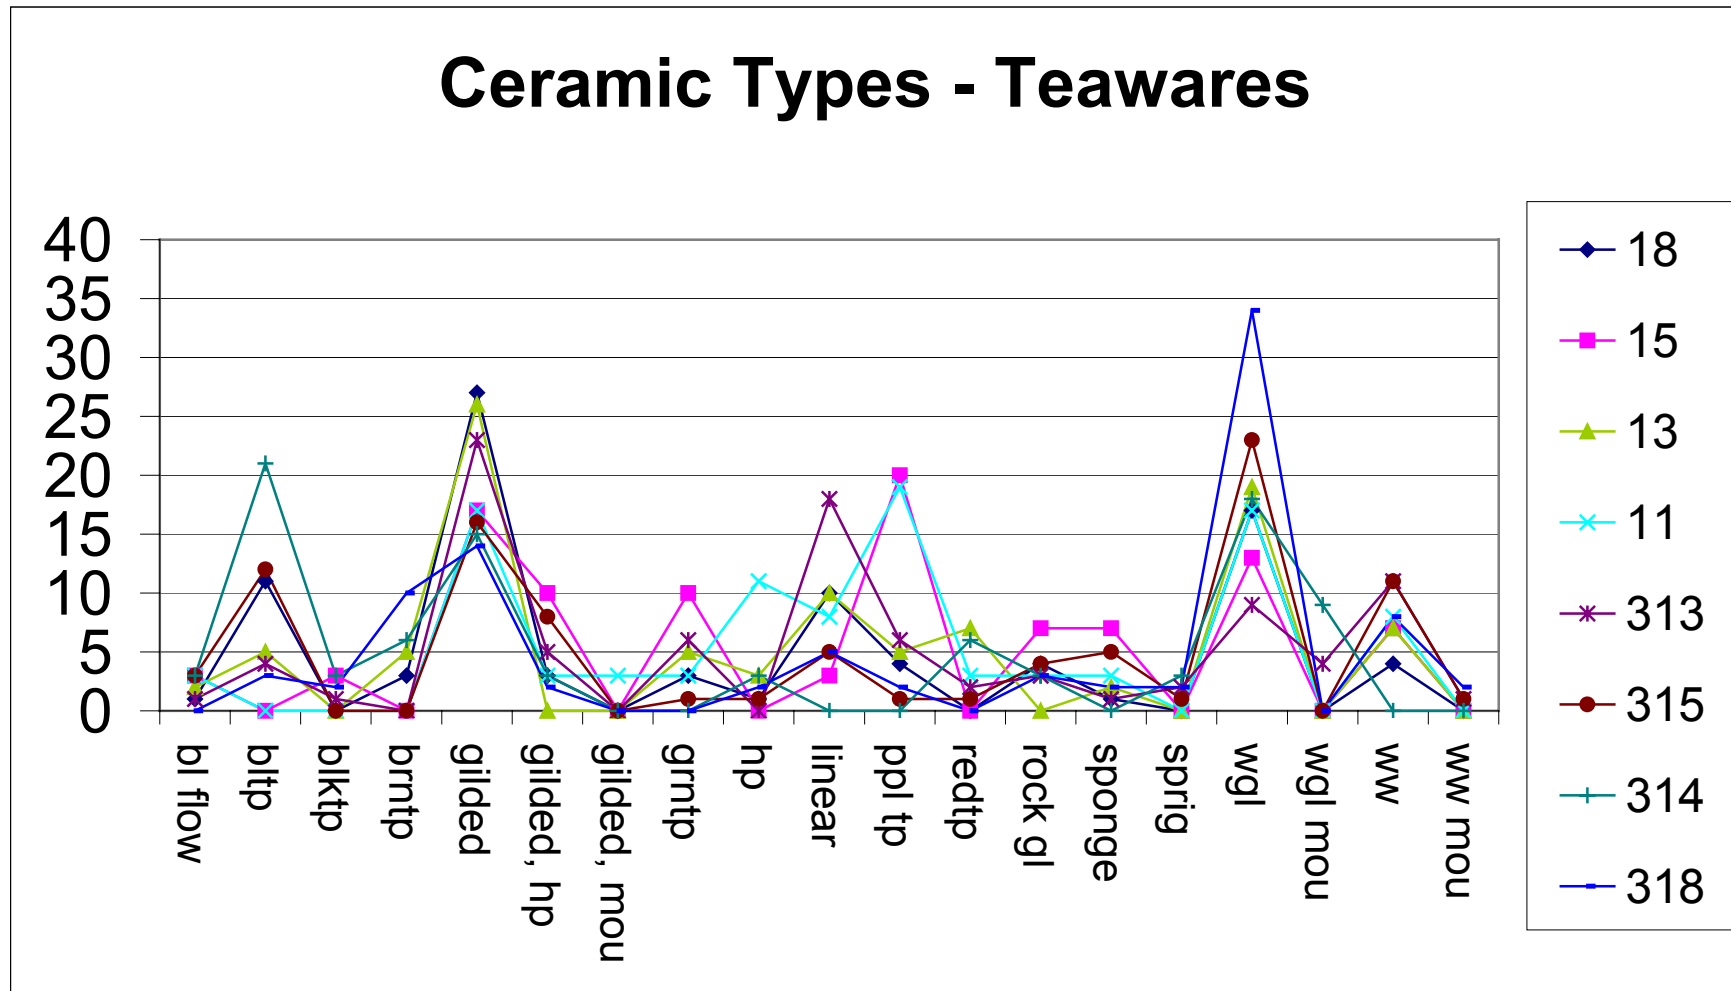

GRAPH 1: Frequency of ceramic types found in the main contexts. Ceramic types with very low frequencies were removed from the graph. Based on Table 24.

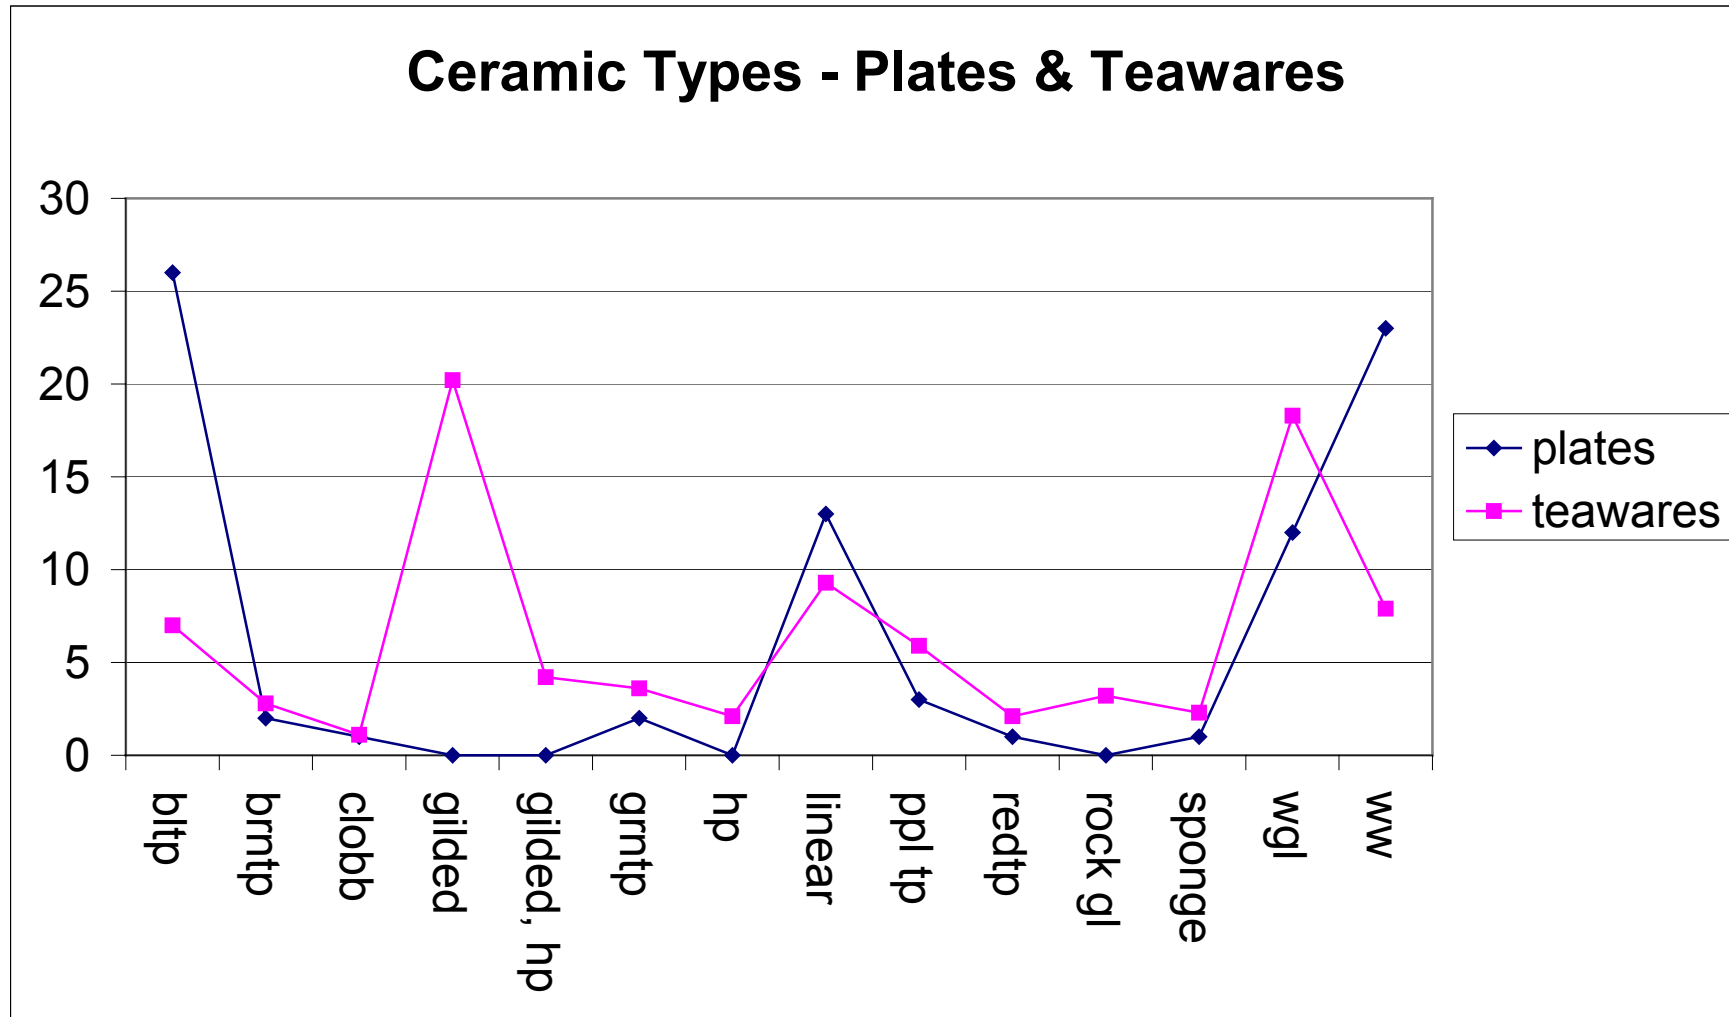

GRAPH 2: Overall frequency of ceramic types found in the main contexts. Ceramic types with very low frequencies were removed from the graph. Based on Table 24.

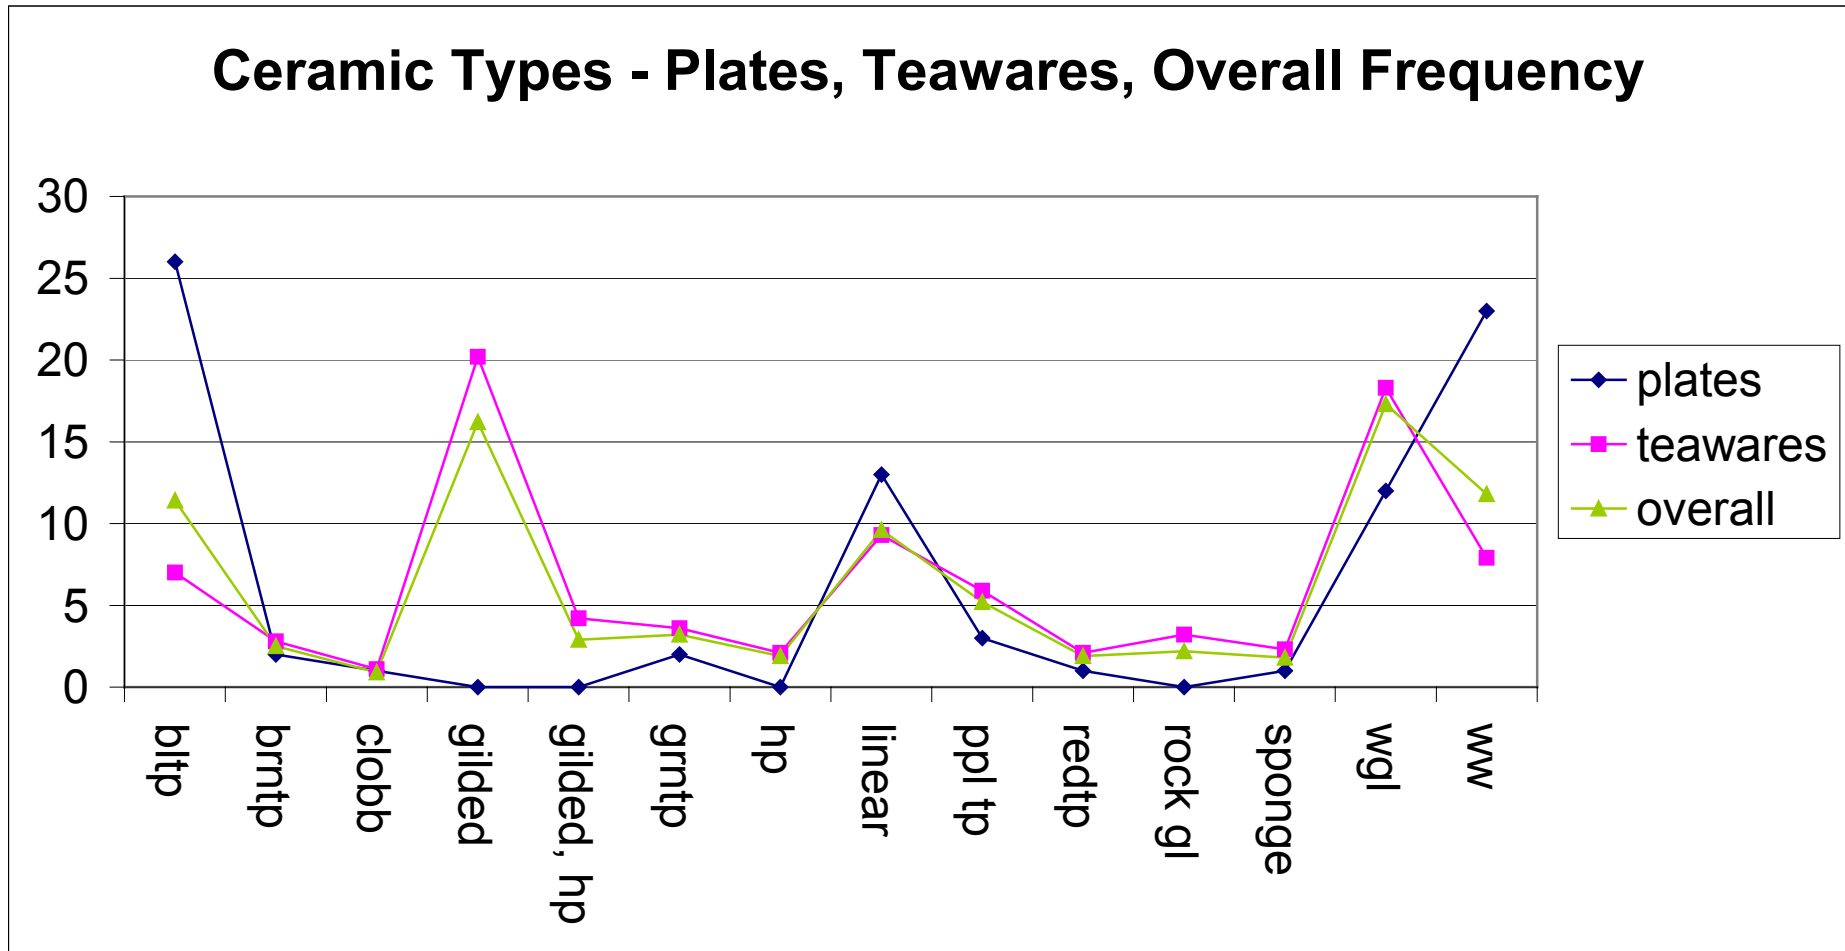

GRAPH 3: Range of ceramic types found on plates in the main contexts from the CSR site. Based on Table 25.

GRAPH 4: Range of ceramic types found on teawares found in the main contexts. Based on Table 26.

GRAPH 5: Frequency of ceramic types on plates and teawares.

**GRAPH 6:** Frequency of ceramic types found on plates, teawares and overall at the CSR site. Ceramic types with a low frequency were removed from the graph. Based on totals in Tables 24, 25, 26.
