- Table 1:** List of all contexts from the site and the number of artefacts found in each context.
- Table 2:** List of all contexts and the frequency of animal bones found within each context.
- Table 3:** Frequency of specific functions from the CSR site.
- Table 4:** Range of different artefacts found at the CSR site.
- Table 5:** Range of general functions found in the underfloor deposits in the four houses in Area A.
- Table 5.2:** Review of general functions in Area A within specific activity areas, kitchen and front room.
- Table 5.3:** Analysis of kitchen deposits in Area A following removal of context #18 which produces a different result for the four most frequent activities.
- Table 6:** List of all sewing, clothing and adornment related artefacts from the four houses in Area A.
- Table 7:** List of all recreation related artefacts from the four houses in Area A.
- Table 8:** List of animal bone types found in the four houses in Area A.
- Table 9:** Frequency of bone type found within each grid of the kitchen of house 15, Context 18.
- Table 10:** Sewing and clothing related artefacts from Area C.
- Table 11:** Frequency of buttons and fabric type in a number of contexts in Areas A and C.
- Table 12:** Range of copper alloy (aes) button types in major underfloor deposits. Note not all alloy buttons fell into the main categories and were therefore not included in this count. In some cases the button type was unable to be identified.
- Table 13:** Range of iron (fe) button types in major underfloor deposits. The most common buttons were 2-piece dome iron shell types.
- Table 14:** Range of mother-of-pearl button types in major underfloor deposits. The most common were 2-hole and 4-hole buttons.
- Table 15:** Range of personal/jewellery items found in Areas A and C.
- Table 16:** Range of personal/grooming items found in Areas A and C.
- Table 17:** Range of recreational artefacts recovered underfloor deposits in the four houses in Area C.
- Table 18:** List of clerical/writing related artefacts found in Areas A and C. The most common artefacts were the slate and graphite pencils.
- Table 19:** List of general functions found in the houses in Area C.
- Table 19.2:** List of general functions in Area C reordered according to activity areas, grouping kitchen together and front and other room together to determine if these room illustrate different patterns.
- Table 19.3:** All kitchen underfloor deposits in Area A and C with the four main categories highlighted.
- Table 20:** Food and alcohol specific functions in the main contexts in Areas A. Only deposits with quantities of artefacts were analysed. Percentages were not produced for the alcohol category, as the data was quite small.
- Table 21:** Food specific functions in the main contexts in Areas C.
- Table 22:** Range of alcohol bottles from Area A and Area C. Percentages were not produced for the alcohol category, as the data was quite small.
- Table 23:** Range of food related shapes found in main contexts in areas A and C.
- Table 24:** Range of ceramic decorations found in the main underfloor deposits in Areas A and C.
- Table 24.2:** Range of specific ceramic patterns and the contexts in which that they were found.
- Table 25:** Ceramic plates were found in a range of different decorative styles.
- Table 26:** Teawares were found in a range of different ceramic types in major underfloor deposits in Areas A and C.
- Table 26.2:** Teaware cups and saucers in matching patterns from the main underfloor contexts.
- Table 26.3:** Teapots from the CSR sites were found in four main decorative patterns with the majority being Rockingham style teapots with a few in Jackfield ware.
- Table 26.4:** Range of ceramic fabric found in teawares from main underfloor deposits.
- Table 27:** Frequency of vessel forms found throughout the CSR site, excluding unidentified and uncertain identifications.
